AIRMATIC[®] HOSTS FOUNDATIONS SEMINAR

Malvern, PA — 12 July 2016 — AIRMATIC, a leading distributor of powder and bulk-solids handling equipment, hosted a MARTIN[®] FOUNDATIONS seminar at its Malvern Facility on June 22, 2016.

The workshop, entitled The Practical Resource for Cleaner, Safer, More Productive Dust & Material Control, exposed leaders from five companies to the latest evolution in practices related to eliminating problems with material handling and advancements in belt-conveyor operations.

Jerad Heitzler, a member of the National Speakers Association and the MARTIN[®] FOUNDATIONS Department Manager, conducted the seminar. For 10 years, Jerad has trained plant and mine operators as well as engineering firms through the FOUNDATIONS program. Seminars are conducted around the world.

“These workshops are a lot of fun for us because we get to partner with our customers and suppliers in a unique way,” Sales Director Bob Braun said. “With the Foundations Seminar we achieve far more client buy-in on the concepts related to clean, efficient, and safe bulk-material handling. Our clients jump at the opportunity to learn from Foundations as well as one another.”

If you would like more information about our Fall and Winter seminar schedule or about a seminar at your facility, we can be reached at 800.332.9770 or customerservice@airmatic.com.

About AIRMATIC INC

Founded in 1944, AIRMATIC is a multi-division distributor of industrial equipment and machinery. Its Materials Management Group provides products and services to industries that convey, store, transport, and process powders and bulk solids; its Tool Group provides MRO and shop supplies used in production, fabrication, assembly, and maintenance in manufacturing, construction, and utility applications; and its Service Group provides installations and maintenance services to improve the efficiency of belt conveyors and other components of a bulk solids handling system, and mechanical clean-out services for blocked hoppers, bins, and silos. By choosing AIRMATIC to solve their problems, Customers gain increased productivity, decreased costs, and a safer, cleaner work environment.
